SIXTY-SIXTH ANNUAL REPORT

OF THE

NORTH CAROLINA BOARD OF PHARMACY

LETTERS OF TRANSMISSAL

Chapel Hill, N. C.,
May 1, 1947

MEETINGS

To His Excellency,
Governor R. Gregg Cherry,
Raleigh, N. C.
SIR:

In compliance with Section 90-57 of the General Statutes of North Carolina, I have the honor to submit to your Excellency and the North Carolina Pharmaceutical Association a report of the proceedings of the North Carolina Board of Pharmacy for the twelve months' period ending April 30, 1947.

J. C. BRANTLEY, JR. ELECTED MEMBER OF
NORTH CAROLINA BOARD OF PHARMACY

In June 1946 Mr. J. C. Brantley, Jr., of Raleigh, N. C., was elected a member of the North Carolina Board of Pharmacy succeeding Mr. I. T. Reamer of Durham, and was commissioned by the Governor on April 28, 1947 for a term of five (5) years from that date.

During the twelve months' period covered in this report the Board of Pharmacy has held four meetings. The first meeting was held in Chapel Hill June 18th and 19th, 1946 for the examination of candidates for license. Five candidates were successful in passing the examination. There were two special meetings held during this period. One was held in Greensboro on July 30, 1946 and one in Chapel Hill October 9, 1946. There was a second session of the October meeting held in Chapel Hill on October 17th. On January 14th and 15th, 1947 a regular meeting was held in Chapel Hill for the examination of candidates. Seven candidates were successful in passing the examination.

EXAMINATION OF CANDIDATES

The following candidates were successful in passing the examination held June 18th and 19th, 1946 and were ordered registered and licensed.

Five (5) in Number

Dingler, Kenneth Lee.....	Mount Airy
Lockhart, Bernard O.....	Greensboro
Neely, Clement M. (col.).....	Winston-Salem
Pethel, Raymond E.....	China Grove
Slayton, Mary Thomasine.....	Murphy

The following candidates were successful in passing the examination held January 14th and 15th, 1947 and were ordered registered and licensed.

Seven (7) in Number

SUMMARY OF DRUG STORES REGISTERED

During the twelve months' period covered by this report seventy-eight (78) Original Drug Store Permits have been granted. One of this number was subsequently cancelled. Forty-one (41) of the above named permits were for stores which were already established and were registered under new ownership. Thirty-six (36) permits were for new stores. On May 1st eight hundred six (806) renewal permits had been granted. From January 1st to May 1st eighteen (18) original permits were granted, making a total of eight hundred twenty-four (824) drug stores in operation in the state on May 1st, 1947. Of this number forty-seven (47) are being operated under Physician's permits in towns of under six hundred (600) population. This leaves a total of seven hundred seventy-seven (777) pharmacies being operated by pharmacists.

A COMPARISON OF PHARMACISTS TO DRUG STORES

In considering the relationship of the figures quoted above, it is found that a ratio exists of full and part time pharmacists to the total number of drug stores of 1.23 pharmacists per drug store. However, if the drug stores which are operated under physician's permits are eliminated from the calculations, as in reality they should be, a ratio of 1.30 pharmacists per drug store is found to exist. (It should be stated that hospitals which operate pharmacies are included in the above figures.) This ratio of 1.30 pharmacists per drug store compares with that of 1.50 for the nation as a whole. It should not be overlooked that the figure for North Carolina will be improved to some extent by the thirty-three (33) Registered Assistant pharmacists employed in our drug stores.

OWNERSHIP OF DRUG STORES

According to the application for drug store permits for 1947, the ownership of drug stores in the state is distributed as follows:

Stores owned entirely by	
pharmacists	46.26%
Stores owned jointly by pharma-	
cists and non-pharmacists.....	27.79%
Stores owned entirely by	
non-pharmacists	25.95%

No figures are available for the distribution of ownerships of stores in the past, however, it is hoped that this information can be obtained from records which have been assembled in the office of the Board of Pharmacy. It is felt that figures on ownership for past years is desirable in order to learn if there appears to be any appreciable shift in the ownership and the resultant management of pharmacies in the state.

IN MEMORIAM

SPECIAL TRIBUTE TO MR. HANCOCK

For almost a half century pharmacy in North Carolina has benefitted from the labors of many unselfish men. It is generally conceded by our neighbors that no higher standards of pharmaceutical practice exists in any of their states or many of the other states of the Union than in North Carolina. This condition is not a result of mere chance but is the product of those who have displayed a devotion to the profession through their untiring efforts to ever improve these standards.

During the year we have suffered the loss of one in particular who was very close to the hearts of all of us. His passing marks a close to an era of pharmaceutical development in North Carolina. It is fitting, therefore, that we here should pay tribute to one who has had so profound an influence on our profession. Will all please stand while J. G. Ballew, President of the Board of Pharmacy, will express in a small measure a token of our feelings after which will be read the names of those other pharmacists who have also ended their participation in pharmacy's contribution to the Public Health? After the reading of this list you will please remain standing for a moment in reverence to the memory of these pharmacists.

FRANKLIN WILLS HANCOCK

The established fact that nothing is constant but change was made acutely real to the members of the Board of Pharmacy when they became aware that the official craft had lost the assuring presence and the dependable services of its veteran pilot, Franklin Wills Hancock, and learned that this vital personality and stalwart member of the Board had been called home for eternal membership on the Board of the Immortals.

It is therefore fitting that the members of the North Carolina Board of Pharmacy give pause in their official proceedings to pay honor and do reverence to their beloved fellow-member and former secretary-treasurer.

The pattern of his life and his devotion to our work lead us to the awareness that "there is no death; what seems so is transition." By virtue of the fact that he served so long and well and strived so faithfully, we know he has found in another and more glorious realm, where virtue and service are measured in values of eternal reward, the true recognition and recompense he so unselfishly earned.

We deplore his loss to the Board, to the Pharmaceutical Association, to Pharmacy at large, to his friends, and to humanity in general.

He was a product of sterling character and infinite capacity, without a synthetic atom in the constituents of his make-up. By every standard assay and the rigid test of personal requirements, he emerged from the refining process of the crucible of experience one hundred per cent pure and, like fine gold, softened by the absence of all alloy.

We know that we can only acclaim, but cannot accord him his true status in the realm of Pharmacy. The Almighty and Eternal Pharmacist alone will confirm to him his rightful and deserving accolade. Yet we know that eternity will preserve his annals in that niche devoted to mortals who attained immortality by serving a long and full life dedicated so unselfishly to the uplifting of his fellow man.

Therefore, Be It Resolved that the North Carolina Board of Pharmacy express in words of deepest sorrow its regret and sadness resulting from the death of FRANKLIN WILLS HANCOCK.

Be It Further Resolved that this humble and inadequate tribute be placed in the minutes of the Board and that a copy thereof be sent to his family in Oxford.

BEAL MEMBERSHIP PRIZE

Miss Laurel Lee Williams of Greensboro, N. C., made the highest average grade of all candidates taking the examination during the calendar year 1946 which was 93 per cent. I recommend her for the prize of one year's membership in the North Carolina Pharmaceutical Association.

DATE OF EXAMINATIONS

During the war period it was necessary for the Board of Pharmacy to interrupt its custom of holding two examination meetings a year, in June and November, and to schedule the meetings at such times as would accommodate the largest number of candidates for license. Now that the emergency has passed with respect to this matter the Board has found it desirable to set definite dates on which the examinations will be

held. Accordingly the third Tuesdays in June and February have been adopted as the dates on which examination of candidates for license will be held.

INSPECTION AND LAW ENFORCEMENT WORK

In some respects the inspection work has not met the expectations as set forth in our goal for the year. This is accounted for by the fact that sufficient qualified personnel has not been available to fulfill the program which was outlined for the year. From a statistical point of view, however, the work done is encouraging. At the present time there is one full time inspector employed by the Board, Mr. Thos. H. May of Wake Forest, N. C., who will give a report on his work since November 18, 1946, after which a full report for the twelve months' work will be made.

REPORT OF THOMAS H. MAY

To the Members of the North Carolina Board of Pharmacy:

I have the honor to submit herewith a summary of inspection work from November 18, 1946 to April 26, 1947.

I have made 636 inspections of establishments in 220 towns covering the following types of businesses.

Retail Drug Stores.....	519
Wholesale Druggists	8
Physicians' Offices	19
Hospitals	12
Soda Shops	68
Grocery Stores	7
Patent Medicine Plants	3

Many of the towns and establishments were made as repeat calls where it was considered important for recheck and were in addition to the above.

Regular reports of inspection were made to the Secretary covering as much as possible all phases necessary for the type of business and such additional information as considered of value to the office.

I have not made an enviable record in the affairs of the North Carolina Pharmaceutical Association and the Institute of Pharmacy to date, principally due to importance of delayed inspection work and time required in most contacts. It has been found in most of our towns and cities, including the largest, that Poison and Exempt Narcotic Books, to a very large degree, are either in bad order or used to finish and in placing these in order and proper use in compliance with the law, I have placed a considerable number with prospects of many more.

In approaching the entire program in inspection and service, I have done so in the same

sense and attitude as I would be approached, handling each according to the findings. In many instances I have found minor violations, while some are as noted near major violations, which I have thus far been able to remedy on the spot or with the good assistance of our Secretary, Mr. McAllister, thereby eliminating the facilities of the court to date.

I am impressed with the fact that our pharmacists and drug store owners as a whole are very cooperative and in complete accord with our inspection and law enforcement program. With little prospects of improving the picture of the shortage of pharmacists licensed in North Carolina, many are adjusting opening and closing hours of their stores, closing Sundays and Wednesday afternoons in order to relieve the difficult long hours of service. I strongly recommend that we tighten further the strings on drug store permits where a pharmacist must be first employed to operate as a drug store—this pharmacist will, with an eye on his past record, be reasonably sure he will remain there for the duration of the permit. One-man registered pharmacist stores, according to my findings constitute one of our greatest problems to adjust to comply with G. S. 90-71, that is for IMMEDIATE supervision of ALL prescription filling and the sale of poisons by a pharmacist and most of my hard work is devoted to re-educating or establishing a plan whereby prescriptions will be held for the attention of the pharmacist during his absence for meals or what not. In some instances a neighbor pharmacist will cooperate with supervision of Pharmaceutical Service for his neighbor, requiring the holding of his prescriptions during his absence and vice versa during the emergency or temporary absence of either.

I have devoted much of the time in making each inspection to checking the storing of narcotics and requesting that in each case, the straight narcotics be stored in a SAFE and in practically all instances, they have agreed to make the change from locker to safe.

Due to the desperate situation as reported for some time on the sale of barbiturates and sulfa drugs over the counter, I have entered the question as to such sales on the record and entered the answer, stressing the importance of dispensing these dangerous drugs only upon the prescription of a physician and refilling only upon the orders and direction of a physician, dating all such refills and containers, assuring a definite double record check.

Prescription room equipment has been somewhat in the line of attention in recent months, as would be expected due to shortage of such materials in recent years and I have noted considerable improvement in these materials being received, such as prescription scales, weights, graduates, mortars and pestles, ointment slabs, etc.

In conclusion I wish to state that I have worked impartially and along educational lines, rendering service where ever possible in order to maintain the high standard of ethical Pharmacy in close harmony and practice in the field with

good teachings these fellow pharmacists received from the able faculty in the School of Pharmacy, University of North Carolina.

Respectfully submitted,

THOMAS H. MAY.

During the twelve months period from May 1, 1946 to May 1, 1947 there have been 1295 inspections made. These inspections were made of the following types of establishments:

Retail Drug Stores.....	1078
Hospitals	15
Wholesale Drug Stores.....	8
Remedy Manufacturers	3
Doctors' Offices	19
Soda Shops	151
Grocery Stores	18
Variety Stores	1
All Others	2

Many unsatisfactory conditions have been corrected without having to resort to legal action. However, it has been necessary to enlist the assistance of the courts in the following cases:

JUDGMENT IN THE CASE OF JOHN L. DAVIS

On March 1, 1946 judgment in the case of John L. Davis, Belhaven, N. C., was continued upon condition that the defendant pay the cost of the action and refrain from further violation of statutes upon which the indictment was based. On May 23, 1946 a motion by the State for prayer for judgment was made upon evidence that the defendant had not refrained from further violation of the law. The following action was entered:

Defendant appeared in court and pleaded guilty of violation of the terms of judgment entered March 1, 1946. After hearing the evidence it is ordered that defendant pay a fine of \$25.00 and court costs of \$113.46. Upon payment of said fine and cost, 90 days sentence in jail is suspended.

This October 19, 1946.

M. M. JONES,
Recorder.

STATE OF NORTH CAROLINA
WAYNE COUNTY

*In the County Court of Wayne County
Before Paul B. Edmundson
Judge County Court of Wayne County*

STATE vs. L. A. LONG

Harmon C. McAllister being duly sworn, complains and says upon information and belief that at and in said County on or about the 20th day of August, 1946, L. A. Long, not being a registered Pharmacist did unlawfully and wilfully operate a Drug Store in the Town of Mount

Olive, N. C., said Drug Store not being registered with the North Carolina Board of Pharmacy in violation of G. S. of N. C. Sec. 90-75 and Sec. 90-73; and did sell at retail, Drugs in violation of G. S. of N. C. Sec. 90-71 and 90-72; and said drug being misbranded in violation of G. S. of N. C. Sec. 106-134 subsections "b" "f" "j" and "k"; and did prescribe a medicine to a person and sell to him such medicine for the purpose of treatment of a venereal disease, in violation of G. S. of N. C. Sec. 130-213 against the form of the statute in such cases made and provided and contrary to the law and against the peace and dignity of the State.

(Signed) HARMON C. McALLISTER.

Sworn to and subscribed before me, this the 11th day of October, 1946, Clara Gardner, Dept. Clerk Superior Court and Clerk ex-officio County Court of Wayne County.

Upon the foregoing affidavit warrant was issued and served on defendant and he was tried upon said warrant in the Superior Court of Wayne County and the following judgment was entered.

NORTH CAROLINA
WAYNE COUNTY

*In the Superior Court
Paul B. Edmundson, Judge*

STATE vs. L. A. LONG

The defendant tenders a plea of nolo contendere. Accepted by State. Prayer for judgment continued for 2 years on payment costs. Good behavior of the defendant until further orders of the court and upon further condition defendant does not during said two year period violate any of the laws of N. C. regulating the practice of Pharmacy and general drug store operation.

In addition to the above actions there have been five individuals cited to appear before the Board of Pharmacy to show cause why they should not be prosecuted or their license suspended. In each case appropriate action was taken and these have been recorded in the minutes of the Board. At the present time there are three such cases pending and will be heard at the next regular meeting of the Board.

During the years of the war and the period immediately following it, serious maladjustments occurred in the field of pharmacy just as there did with all other vocations. Some of the conditions that existed resulted in violation of the law. The magnitude in the number of these infractions was such that they could not all be handled immediately. There are some which still exist. It is felt that these con-

stitute a health hazard to the people of the state and should be corrected at the earliest possible time.

In dealing with a problem of such dimensions and of such importance, it was necessary for the Board of Pharmacy to adopt certain guiding principles in order to be consistent in the activities which were designed to remedy the situation. In arriving at these principles many factors were considered. Outstanding among these were:

1. The basic function of the pharmacist and the drug store.

2. The number of pharmacists in the state.

3. The number of drug stores in the state.

In regard to the first factor mentioned, there seems to be wide variation in opinion as to just what the function of the drug store actually is. In general terms it can be stated, however, that the function of the drug store is dual in nature and consists of: (a) the distribution of a commodity, and (b) the rendering of a professional service; both being associated with the protection of the public health. In most cases the rendering of the professional service involves the distribution of a commodity. There is a vast difference, however, in the requirements to be met in order to fulfill these separate functions. This difference may be illustrated by two simple examples. One would merely distribute a commodity if he sold a tube of tooth paste. This act could be performed by any literate person. On the other hand, suppose one undertakes to distribute twelve capsules to be accurately compounded and consisting of specified amounts of several medicinal agents. In order to properly render this service one must first have a knowledge of the drugs to be compounded. Second, he must possess the technical skill to compound them in such a way as to make the finished product conform to the specifications of the order. It might be stated parenthetically that the mechanical skill for assembling drugs into a preparation too often is mistaken for a knowledge of those drugs. The possession of the knowledge and skill to properly handle drugs in a safe manner has been recognized by the state as an important

prerequisite to engaging in the distribution of them and it has excluded by law from this practice those persons who have not qualified themselves through training and experience to properly do so. The Legislature has placed on the Board of Pharmacy the burden of seeing that only qualified persons engage in these restricted activities. The public health demands that the Board of Pharmacy fulfill this obligation.

In regard to the second factor, the number or supply of pharmacists in the state, according to the records there are more pharmacists on the active roll as of May 1st than at any time in the history of pharmacy in the state, this number being 1274. Likewise, there are more pharmacists employed in drug stores than at any time in the past. This number being 991 full time pharmacists and 19 part time pharmacists making a total of 1010. This record number of pharmacists can be attributed to three factors:

1. The return of pharmacists from other fields and from retirement to the practice of pharmacy.

2. The return from service with the Armed Forces of those pharmacists who were in war service. (All of these have now been returned to civilian practice), and

3. Stimulated activity in reciprocal registration.

These three sources of pharmacists have been exploited to an extent that we can no longer expect to increase our rolls from them. The only other source upon which we can depend for our supply of pharmacists are the schools of pharmacy. Aside from this source, the present supply represents the number upon which we shall have to depend.

At this point it might be well to examine our replacement requirements. Various figures ranging from 2.5% to 3.5% have been used to determine the number of pharmacists necessary to replace those lost through death and those who transfer to other fields of work. The Pharmaceutical Survey now under way will likely be able to provide us with accurate information in regard to this matter. In the absence of more reliable figures it is generally agreed that a replacement figure of 3% is ade-

quate for North Carolina under normal conditions. Using this figure it would be necessary to register 38 new pharmacists each year in order to keep our active roll at its present state. Thirty of this number would be available to the retail drug stores.

In considering the personnel of our drug stores, there is another group that must be considered. According to the applications filed with the Board for the renewal of permits for 1947 and for the registration of new drug stores, there were 963 "unlicensed clerks who sell drugs under legal supervision" employed in the 824 drug stores. Based upon information gathered from our inspection reports there is a substantial amount of pharmaceutical service rendered by these individuals not under legal supervision and in violation of the law. To what extent it will be necessary to replace this personnel is a matter that will have to be determined by the conditions. However, the extent to which the activities of this group must be restricted is set forth in the law and will be discussed later.

The third factor used in considering the basis upon which our inspection program was to be carried out is the number of drug stores in the state. As noted above there are 824 drug stores (including hospital pharmacies) in operation in North Carolina. This represents an increase of 35 over the number in operation at the close of last year. 1946 witnessed the smallest number of stores in the state since the permit law was inaugurated and records were available. The highest number being registered was in 1933 when 924 permits were issued. The average number of stores registered per year for the twenty year period was 857. This figure is probably high due to the fact that it does not take into account duplications in cases where a store was registered under new ownership during the year but had previously been registered earlier in the year. If correction were made for these transfers in ownership we would get a figure very much the same as we have today.

In considering stores in actual operation, however, there is a noticeable trend toward an increase in the number of stores within the past eighteen months. This

trend is to be expected as a result of readjustment processes after the war. It is doubtful though whether much of an increase in the number of stores can be justified on the basis of available qualified personnel. It is well known that there are communities in the state that are not receiving adequate pharmaceutical service due to the absence of the necessary drug store facilities. It is equally well known that there are some communities in which the number of drug stores far exceeds the demand for their services. This has resulted in an emphasis on those activities which are unrelated to pharmacy in some of the stores in these communities.

At the last convention of this Association certain measures which had been adopted by the Board with regard to the establishment of new drug stores was reported. The results obtained from the operation of these regulations during the intervening period are encouraging. The experience gained during this time is a valuable asset to future operation of these regulations. The Board wishes to reaffirm the principles as set forth in its resolution of March 1946 relating to the issuance of original drug store permits.

A discussion of the several factors upon which the Board has based its law enforcement program would be of little value unless the relationship between these factors were reviewed. It might be interesting to correlate the several factors and to arrive at possible conclusions. From the latest surveys there are approximately twelve million prescriptions filled annually in North Carolina. This is an average of about forty per day per store. On the basis of the ratio of pharmacists to drug stores it is found that 1.30 pharmacists are available to fill the forty prescriptions. This number is adequate provided they are adequately distributed. Yet it is found that from the drug store applications that there are 963 unlicensed clerks who are assisting with the servicing of the twelve million prescriptions. Some of these we know not to be under legal supervision. It is felt that this condition constitutes a hazard to the public health.

The law restricting pharmaceutical service to properly qualified pharmacists creates

a necessary monopoly in so far as this service is concerned. This monopoly cannot be enjoyed without assuming a corresponding obligation to safeguard the public. The fact that the exclusive privilege of rendering pharmaceutical service has been exploited in some of the stores in the state without the public receiving the protection to which it is entitled under the law is unfortunate. This condition must be corrected at once. Consistent with the policy announced in the last report of the Board to the Association, those who are found to be violating the law will be given the opportunity to correct the condition before legal proceedings are instituted. In order that none may be unaware of what is expected in this regard, the inspector has received instructions to leave a prepared notice concerning this matter with all drug stores. For the benefit of those who have not already received this notice a portion of it is repeated here:

"Section 90-71 of the General Statutes of North Carolina provides that pharmaceutical service (the filling of prescriptions, sale of poisons, and such other similar activities as are not permitted to the general merchant) shall be rendered only by or under the *immediate* supervision of a licensed pharmacist. This applies at all times. It is recognized, however, that there are times during the hours which the drug store is customarily open that the pharmacist cannot be on duty. During such times it is expected that only such activities as are permitted to the general merchant will be carried on in the drug store. To render pharmaceutical service in the absence of the pharmacist or not under his immediate supervision will be considered a violation of the law by the Board of Pharmacy.

In the same section the law provides that "it shall be unlawful for any owner or manager of a pharmacy or drug store or other place of business to cause or permit any other than a person licensed as a pharmacist or assistant pharmacist to compound, dispense or sell at retail any drug, medicine or poison, except as an aid to and under the immediate supervision of a person licensed as a pharmacist or assistant pharmacist." The Board of Pharmacy will

consider the owner or manager of a drug store equally responsible with an employee of any violation of the law regulating the manner in which pharmaceutical service is rendered.

Mr. Bowman has appraised you of the legislative program for this year. One item in his report deserves especial attention here. The law which was enacted permitting the Board to apply to the Superior Court for a temporary or permanent restraining order is in line with better practice throughout the country. It is a further indication of the progressive temper of our Legislature. This law will relieve the Board of one of its greatest handicaps in enforcing the law. In the past most of the cases had to be handled in the local recorders courts, with resulting leniency of enforcement. It is expected that no such leniency will be experienced in the Superior Courts. It is not the plan of the Board of Pharmacy to use this procedure routinely. However, it shall not hesitate to employ this method should less effective efforts fail to accomplish compliance with the law.

STORES OPERATED UNDER PHYSICIANS PERMITS

In North Carolina there are many rural communities. The people living in these communities require pharmaceutical service just as do those in more thickly populated areas. A number of years ago the Legislature made provision whereby this demand for pharmaceutical service could be satisfied by allowing the Board to grant permits to physicians to operate drug stores in towns of less than six hundred population. On May 1st there were forty-seven stores in the state being operated in this manner. The permits are granted to the physician on his statement that he will render this service. Our investigations tend to show that this obligation is not being fulfilled to the fullest extent. Based upon the belief that the people in the rural communities are entitled to the same protection as those in other areas, the Board will henceforth devote more attention to these stores than has been the practice in the past.

DANGEROUS DRUG CONTROL

Although the responsibility for the enforcement of the Food, Drug and Cosmetic

Act, and therefore the control of dangerous drugs, is vested in the Department of Agriculture, the Board of Pharmacy is interested in this control as a public health measure. Since the enactment of this law, the Department of Agriculture has been handicapped in the efficient enforcement of

the act due to inadequate finances. In view of the fact that the Board feels that these dangerous drugs and especially barbiturates constitute one of our greatest health hazards it recommends that means be found whereby the Food, Drug and Cosmetic Act can be strictly enforced.

In Memoriam

BALANCE APRIL 30, 1947:

Bank of Chapel Hill.....	12,839.80	
U. S. Treasury Bonds.....	5,000.00	17,839.80

TOTAL DISBURSEMENTS & BALANCE.....	\$34,609.03
------------------------------------	-------------

The above Financial Report was audited as per order of the Board of Pharmacy by a Certified Public Accountant whose report follows:

RAYMOND L. PRICE

Certified Public Accountant

404 Commercial Building

RALEIGH, N. C.

May 21, 1947

To the Officers and Members of the North Carolina Board of Pharmacy:

Gentlemen:

Pursuant to engagement, we have made an audit of the financial records of Mr. H. C. McAllister, Secretary & Treasurer of the North Carolina Board of Pharmacy for the period from May 1, 1946 to April 30, 1947, and the attached statement of Cash Receipts & Disbursements presents a summary of operations for the fiscal year.

All Receipts reported in the books were traced to the bank. Disbursements for the year were made for apparently proper purposes and are supported by signed, paid checks, receipted bills, etc.

The Balance on Hand at April 30, 1947 consists of the following:

CASH IN BANK OF CHAPEL HILL:

General Account	\$12,839.80
-----------------------	-------------

INVESTMENTS:

U. S. Treasury Bonds (2 ½%)	5,000.00
-----------------------------------	----------

TOTAL BALANCE APRIL 30, 1947.....	\$17,839.80
-----------------------------------	-------------

The Cash In Bank was reconciled and verified. The five U. S. Treasury Bonds of \$1,000.00 each, were inspected.

The fidelity bond for the Secretary & Treasurer, in the amount of \$5,000.00, has been continued.

The records are in splendid condition and no difficulty was experienced in preparing this statement therefrom.

Respectfully submitted,

R. L. PRICE,

Certified Public Accountant

ELP:B

List of Registered Pharmacists

REVISED MAY 1, 1947

Please notify the Secretary promptly of any change in address

The state of original registration appears in parentheses after the names of pharmacists registered by reciprocity.
